

## **Hugues Grégoire**

**Manager, Structural and Truck Engineering,  
Bombardier Transportation**

**Lead Project Engineer, 2010 Olympic Torch**

*“I’ve been with Bombardier for 13 years. When they came to me and said “Hugues, make it happen,” I couldn’t believe my luck. I feel so incredibly privileged to be part of the Bombardier team that created the Olympic torch.”*

Since joining Bombardier Transportation in 1996, Mr. Grégoire has occupied different positions within Bombardier, more recently, he manages Structure and Truck design group, as well as related services such as welding, crashworthiness analysis, and metallurgy.

Mr. Grégoire manages the activities of the Structural Engineering function for Bombardier Transportation projects. He also supports the development of new products in the areas of Project Management, Production Engineering, Advance Engineering, Procurement, Methods and Marketing. Finally he oversees R&D project related to vehicle structure for Bombardier Transportation.

As Lead Project Engineer, Mr. Grégoire’s diverse experience played a central role in the Olympic Torch design and manufacturing process.

Mr. Grégoire has a Bachelor’s Degree in Mechanical Engineering from École Polytechnique de Montréal.
